

Rajesh Ravi

Full-Stack & AI Engineer

ravirajesh988@gmail.com • +918883761709 • Tamil Nadu, India • <https://www.linkedin.com/in/rajesh-ravi-22684130b/>
• <https://github.com/rajeshravi2004> • <https://rajeshportfolio-olive.vercel.app>

Full-stack and AI engineer building production-ready healthcare, developer-tooling, data, automation and cloud workflows. Experienced across React, TypeScript, NestJS, FastAPI, PostgreSQL, Supabase, RAG/vector retrieval, Playwright quality gates, Docker/Kubernetes delivery, and secure API architecture.

EXPERIENCE

Junior Full Stack Developer

Jul 2025 - Present

Mittai Healthcare Private Limited

Build and maintain production healthcare workflows across React and NestJS applications, including clinical documentation, OPD/IPD flows, dashboards, billing, authentication, AI-assisted responses, audio and real-time features. Contribute Playwright regression coverage, Docker/Kubernetes delivery, health checks and rollback-aware release practices.

Full-Stack Developer Intern

Mar 2025 - Jun 2025

Mittai Healthcare Private Limited

Developed healthcare platform features across frontend, backend and AI integrations. Worked on reusable APIs, clinical workflows, containerized development, documentation and testing foundations before moving into a full-time engineering role.

AI/ML Internship Scholar

Jun 2024 - Jul 2024

AIIRF-EDII

Built applied AI/ML foundations through model workflows, data handling, experimentation and practical automation exercises.

UI/UX Internship Scholar

Jun 2023 - Jul 2023

AIIRF-EDII

Learned user-centered interface design, wireframing and usability fundamentals that now support practical full-stack product work.

SELECTED PROJECTS

Stockscope - Equity Research Dashboard

React 19, Node.js, Vite, Server-Sent Events, Playwright, Docker, Vercel

Built a stock-research web app for Indian and US equities with adjusted-history charts, forecast intervals, risk classifications, watchlists, scenario comparison, CSV import/export, walk-forward validation and live quote monitoring.

Browser Lab - Browser APIs and DevTools Learning App

React 19, Vite, Node.js, Web APIs, WebSocket, Service Workers, Playwright

Built a browser-learning workspace with 57 runnable experiments, editable JavaScript, animated models, DevTools walkthroughs, learning paths, bookmarks, progress tracking and real teaching endpoints for CORS, streaming, SSE and WebSockets.

RajeshOS - AI Knowledge Workspace

React 19, TypeScript, Python, FastAPI, Gemini, Supabase, PostgreSQL, pgvector, MCP

Built a multi-tenant AI workspace for document-grounded agents with recoverable file ingestion, hybrid semantic/full-text retrieval, citations, versioned prompts, authenticated sessions, REST API publishing and MCP tool publishing.

Resume Studio - AI Resume Workspace

React, Node.js, Express, Supabase, OpenAI API, Puppeteer, DOCX

Built an AI resume workspace with reusable profiles, tailored resume versions, live previews, ATS analysis, job-description matching, LinkedIn URL import, cloud persistence and PDF/DOCX/HTML/JSON exports.

Rajify - Music Discovery for Web, Desktop and Android

React 19, Electron, Flutter, Dart, Vite, YouTube API, Supabase, Vercel

Built a music discovery product across React web, Electron Windows and Flutter Android with YouTube-powered playback, playlists, favorites, listening history, queue controls, Google sign-in, synced preferences, admin controls, Windows installer and Android APK releases.

Authorized Security Testing Platform

FastAPI, React, SQLAlchemy, PostgreSQL, HTTPX, Playwright, Docker, OWASP WSTG

Designed a scope-enforced web/API assessment platform with async scanning, crawling, extensible security plugins, evidence capture, findings, reports, retesting, static analysis and isolated regression labs for authorized targets.

TECHNICAL SKILLS

Frontend

React, Next.js, TypeScript, JavaScript, Tailwind CSS, Vite, Electron, responsive UI

Backend & Data

Node.js, NestJS, Express, Python, FastAPI, Django, PostgreSQL, Supabase, Redis, SQLAlchemy, Prisma

AI, RAG & Automation

Gemini, OpenAI API, RAG, Qdrant, pgvector, FAISS, embeddings, prompt engineering, MCP, Playwright, Puppeteer

Cloud, DevOps & Security

Google Cloud, Docker, Kubernetes, GitHub Actions, CI/CD, OpenAPI, JWT/RBAC, OWASP WSTG, API hardening

EDUCATION

B.E. Information Technology

2021 - 2025

Annamalai University

8.73 OGPA

INTERESTS

Healthcare technology

AI products

Secure platform engineering

Developer tooling

CERTIFICATIONS

Diploma in Computer Application

2021

LANGUAGES

Tamil
